

Prince Valiant

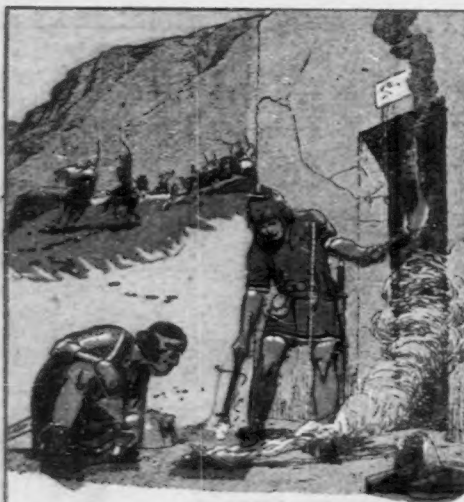

IN THE DAYS OF KING ARTHUR
by HAROLD R. FOSTER

Synopsis: PRINCE VALIANT AND HIS FRIENDS LEAVE THE COMPLETELY TAMED KING DUMDRIBILE AND RIDE ACROSS THE KINGDOM. AT THE BORDER IS ANOTHER SMALL FORT WITH ITS GARRISON OF SOLDIER-BANDITS.

THE SOLDIERS HAVE HEARD OF THESE BOISTEROUS KNIGHTS FROM THE NORTH. THEY DO NOT KNOW THEIR KING HAS GIVEN UP HIS EVIL WAYS.

"NOW THAT KING DUMDRIBILE HAS CHANGED HIS WAYS, THESE THIEVING RASCALS WILL HAVE TO GO TO WORK," SAYS VAL. "SO EGIL AND RUFUS, RUN THEM INTO THE HILLS WHILE ARF AND I SET FIRE TO THEIR NEST."

A FEW MILES FURTHER ON TWO STALWART YEOMEN GREET THEM: "BY YONDER DEED YOU HAVE CLEANED OUT A FOUL PLACE, AND WE WILL NO LONGER HAVE TO GUARD OUR BORDER."

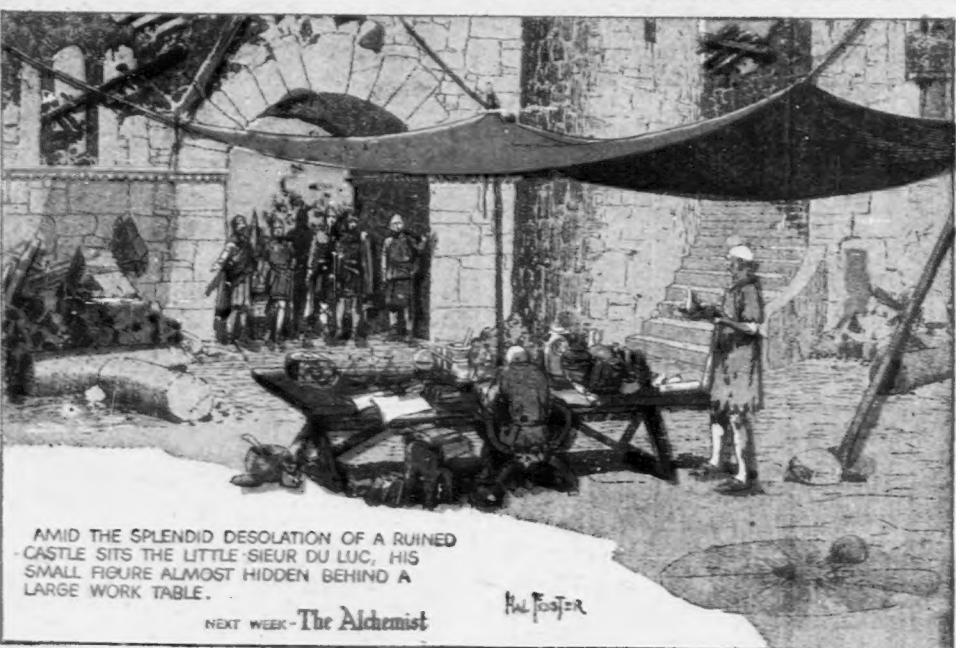

"WHAT!" EXCLAIMS VAL, "YOU TWO HELD THE BORDER AGAINST TWO SCORE OF RASCALS?"

"OH, EASILY! THEY ARE ONLY MANGY SERFS BUT WE ARE FREE MEN!" THEY ANSWER PROUDLY.

"THE SIEUR DU LUC HAS GIVEN ALL HIS MEN OWNERSHIP OF LAND AND A VOICE IN GOVERNMENT. COME, SIRS, YOU MUST VISIT HIM!"

AMID THE SPLENDID DESOLATION OF A RUINED CASTLE SITS THE LITTLE SIEUR DU LUC, HIS SMALL FIGURE ALMOST HIDDEN BEHIND A LARGE WORK TABLE.

\$40,000 Belgian Treasure Located In City Warehouse

By Maury Soward

A story of a noble Belgian family being robbed of its art treasures by a servant, and a 10-year hunt on two continents to locate them, developed Friday out of six dust-covered boxes seized in an Edmonton storage warehouse.

In the boxes was an estimated \$40,000 worth of Belgian paintings and other objects, stolen from the Brussels home of an elderly Belgian baron during the last war. Later, the treasures were brought to St. Albert and \$75,500 fire insurance taken out on them.

They buried the fire which broke out the same day the five insurance premiums were paid. And Chief Justice W. R. Howson of the Alberta Supreme Court to be the property of Baron Kasse van Doorn, now living at Englewood, New Jersey, U.S.A.

They will be returned to him as soon as they can be re-packed for shipment.

LOOTED BY SERVANT
When Baron van Doorn, the retired head of a Brussels banking house, died with his wife and two children in the U.S. in November, 1946, to escape the advancing Germans, he left his mansion in the care of "an old family retainer."

This servant, Jules Tuleaire, had served Baron van Doorn since his long life with the family. He looted the Brussels house of art treasures which the baron estimated he spent "over half a century" collecting.

Among them were the art objects discovered in MacMahon Storage here Thursday. They had been sold by Tuleaire to another Belgian.

Dryden Gets Eye Injury

MEDICINE HAT, Alta., Oct. 21.—(CP)—James Dryden, 21, who plays with Medicine Hat Tigers of the Western Canada Junior Hockey League, may lose the sight of his right eye from injuries received in a fight during a game here last night.

The free-for-all involved most of the players of both the Medicine Hat and Moose Jaw Canadian clubs. Team-mates say Dryden received a skull-splitting across the eye and forehead while he was being held down on the ice.

The youth is in hospital where an exploratory operation on the eye was performed this morning.

Dryden played with Medicine Hat Athletic Club juveniles before joining Tigers this season. He is a son of Mr. and Mrs. Vaughan Dryden of Edmonton.

AUNT JINNY SCORES UPSET IN STAKE RACE

NEW YORK, Oct. 21.—(AP)—Duel Headley's Aunt Jinny scored a major upset today by winning the \$40,000 Demolition stake for two-year-old fillies at Jamaica.

Belair Stud's Valencia was second, with Kestoncher's Bess Bee Third in the mile and one sixteenth mile.

Aunt Jinny ridden by Nick Wall, was clocked at 1:43 1/5, and returned \$26.30, 29.10 and \$170. The victory was worth \$30,700 to Headley.

WINNIPEG, Oct. 21.—(CP)—Skateboarders Roughriders, fighting for the home field privilege in the sudden-death semi-final game of the Western Interprovincial football conference with Edmonton Eskimos, today laced the Winnipeg Blue Bombers by a score of 56 to 1.

A near-capacity crowd of 8,000 sat in Osborne Stadium to watch the first scheduled clash between the Bombers and Riders.

Eskimos and Calgary Stampeders were scheduled to meet at the same time in the second round of the playoffs.

The Riders took first place and gave them victories over all union clubs.

The Golden Gaels held the power at fullback to an end position for today's game, gave the Roughriders a lead early in the second quarter when he hit paydirt on an intercepted pass from Blue Bomber's second string quarterback Pete Petrov.

The plugging Pierce scored his second touchdown of the quarter when he hit the Bomber line to score from the two-point drive.

Both touchdowns were converted by second string quarterback Wright of the Roughriders.

Winnipeg picked up a single point on Joe Aguirre's kick to the deadline in the first quarter.

The Riders then led 12-1 at half-time.

GREENE GETS GOING
In the third quarter Riders picked up two more converted touchdowns to make the score 24-1.

This quarter was marked by the punting play of Riders' hardworking Nellie Greene who hit for both touchdowns and kicked the single. The other point came from Wright's third convert of the day.

Neither club seemed to be taking chances today as big names from both clubs sat out a lot of the ball game.

Driver Gets Fined \$50
An East Edmonton man was fined \$50 and costs for dangerous driving following a minor accident on the High Level Bridge which took two persons to hospital early Saturday morning.

Alan Kay, Sub P.O. East Edmonton, pleaded guilty to the charge. Kay and Estee Zager, 540-103 street, were released from Royal Alexandra Hospital following treatment for cuts and bruises to the face.

Accident occurred at 12:30 a.m. Saturday when Kay's auto struck the left side of a city grade clearing the gutters of the bridge deck.

Police said that warning signs and red flares had been placed at both approaches to the bridge at the time of the accident.

Plead Guilty To Shopbreaking

Two men captured after police fired a warning shot, pleaded guilty today to charges of burglarizing a downtown clothing store.

Pleading guilty to shopbreaking and theft in police court today, Robert Lavory and Edmund "Fiddle" Greene, 9832-112 street, were remanded until Oct. 30 for sentence.

A third suspect is still being sought by police for the burglarizing and robbery of College Clothes Limited at 10456 Jasper avenue.

The thieves obtained \$251.80 in cash and a quantity of clothes. All the clothing was recovered.

One of the suspects was arrested when he walked into a police trap in his room. The second was nabbed on the street following a short chase by a city constable.

The break-in was reported at 2:30 a.m. when a pedestrian saw three men leave the College Clothes store. At 2:40 Constables Ed Walker and Thomas Botsford in a patrol car spotted the men near the CPR subway at 109 Street and Jasper.

It's the third time we have been broken into this year," owner John Krywko said today. "Last time was in February and May."

When they alerted the officers, the men dropped the bundles they were carrying and fled in different directions. Constable Walker grabbed Lavory after a short chase.

Botsford fired a warning shot over the head of the second man but he escaped in the dark.

Lavory was taken to the station, charged and signed a statement. Constable Henry Graham was then hidden in the room shared by Lavory and Greene. At 3 a.m. Greene returned to the room and was arrested by Graham. He was taken to the police station and charged with Lavory with shopbreaking.

The industrious thieves gained entry to the store by forcing two bars on a basement window just 20 feet from the second floor.

To reach the till and merchandise, they pried off more bars under the window and then crawled up through a grid into the back room of the shop.

Police say the men were in the store a considerable length of time, as the stolen clothes were found wrapped in four neat parcels after Lavory and Greene were arrested following the chase from 109 Street and Jasper avenue where they were spotted.

Five Hunters Still Missing After Week

A week after their plane went down into the vast northern bush, five men were still missing today and a vast air and ground search continued unimpaired.

Search today was concentrated in the area south of the Grande Prairie-Edmonton airway, an area not thoroughly searched before because of bad weather.

Twelve air force planes took off at dawn today with additional planes in the air. Squadrons scheduled to take off later. Private planes taking part will probably double the fleet to about 20.

Meanwhile the reward offered for information leading to discovery of the plane was raised from \$500 to \$1,000 by Motor Car Supply Company of Canada, employer of Stuart Reid and James W. Mulcahy, two of the missing men. The original \$500 was offered by relatives.

Missing aboard the war surplus plane are pilot Harry Pennington and Harry Morton of Vancouver; and James Mulcahy, Joseph Dory and Stuart Reid, of Edmonton.

Their plane disappeared Saturday while on a flight in bad weather from Grande Prairie to Edmonton.

28,000 Korean Reds Sealed Off

Allies Paratrooper Landing Cuts All Highways To North

SEOUL, Oct. 21.—(AP)—Quick moving United States paratroopers today sealed off 28,000 North Koreans. This was nearly half of the estimated organized enemy fighting force left north of Parallel 38.

Gen. MacArthur's headquarters said all main roads in the Sunchon-Sukhoan area, where the 4,100 Americans dropped out of the sky Friday, were blocked against the Communists.

An estimated 60,000 Communist fighting men left in North Korea thus far will be able to move south in the future stage against allied troops racing to bring the savage four-month war to an end, an intelligence officer said.

MacArthur said his headquarters said the Communists may be able to move some of the trapped 28,000 men over hills and that their heavy equipment was lost.

What little opposition the North Koreans tried to put against the paratroops was speedily overcome. The Commonwealth brigades in the Sunchon area.

A MacArthur spokesman said there is still no evidence of an organized defense line north of the present battle zone of an "auxiliary" capital.

CAPITAL MOVED
However, the North Korean government moved by radio to Sunchon, one mile south of the Yalu River on the border of Manchuria.

The Communists are now using the city as a broadcasting station, clearing up the mystery of the whereabouts of the North Korean capital.

Resistance in Pyongyang, the captured Red capital, is flickering out, the intelligence officer said. American tanks have crossed the Taedong and are in the city. Small pockets of Reds and snipers peaked away at the United Nations troops.

The intelligence officer said the two North Korean army corps headquarters organizations have been broken up. He said the commanding generals are believed to have escaped. Local guerrilla bands apparently were operating on their own.

TRIUMPH SEEN NEAR
MacArthur, who supervised the big parachute drop, said it is confident that triumph for United Nations forces is near.

Five South Korean divisions are preparing to rush to the Manchurian border to cut off escape routes for remaining Red forces.

More and more the Communists appeared to be lost. Their best for battle. They surrendered in droves and small groups. More than 25,000 war prisoners are being taken by the allies.

U.S. Air Cavalrymen and the paratroops linked forces over the 30-mile stretch between fallen Pyongyang and Sunchon to the north.

An army war summary said the paratroopers had secured their objectives in the Sunchon and Sukhoan areas.

The South Korean 8th Division joined the paratroopers a few hours after the Americans landed. The air drop was one of the largest in the history of warfare and the only one in this war that has claimed an estimated 200,000 lives since it started June 25.

Q—I wish to repaint a wood surface that is covered with mildew. How can I remove the mildew—Mr. McC.

A—Mildew surfaces should be washed prior to repainting with a solution of one pound of trisodium phosphate or sodium carbonate dissolved in one gallon of water. After thoroughly scrubbing, the areas should be rinsed with clean water and allowed to dry before painting.

Large Incomes Disappear In U.K.

LONDON, Oct. 21.—(UP)—There are only 30 persons left in Britain with an annual income of 6,000 pounds (£18,000) after taxes, an inland revenue report on the last tax year disclosed. In the last year of the war, the number was 55,000. Britain has a population of 56,000,000.

May submitted an affidavit in which he identified his missing art objects from pictures sent him by the insurance company.

CHECKED INVENTORY

A charge was laid in Belgium against Baron de MacDonagh, a Belgian nobleman who had been arrested after the war, the number was 55,000. Britain has a population of 56,000,000.

One of the "individuals" was Tulliere, who was sentenced to a five-year prison term in Belgium last Nov. 29 for theft of art treasures.

In the March 31 affidavit, van Doorn wrote that only "a very small part" of the total treasure stolen by Tulliere had been recovered.

RECOVERED TO BELGIUM

One of Lucien Bral's first acts when he arrived in St. Albert in August of last year was to take out \$7,500 life insurance on the art objects from Styli, Smith and Driscoll, Edmonton agents of Phoenix Insurance Co. of Hartford, Conn.

The evening of that day, Aug. 18, he broke out in Bral's St. Albert quarters but damage was confined mainly to four paintings.

The next morning an application was made to the St. Albert police and was refused by the company which cited an agreement calling for the art treasures to be stored in a warehouse before the insurance was to take effect.

The RCMP and insurance experts were called in. Although Bral was asked to remain in St. Albert for questioning, he returned to Belgium.

TREASURE STORED

The insurance company instituted inquiries in several European countries regarding the treasures.

Meanwhile, with Bral's consent, the treasures were packed in containers and stored with MacDonagh Storage, but without the contents of the boxes being disclosed.

Baron van Doorn answered the insurance company inquiry and last

Britain May Buy Food From Canada After All

OTTAWA, Oct. 21.—(CP)—New United Kingdom food contracts are in sight for Canada.

A government official said yesterday that preliminary talks on the signing of new 1950 Anglo-Canadian food agreements have been held.

There are indications, he said, that the United Kingdom government will reverse a previous decision to buy next year on the open market, and again sign fixed contracts for bacon and cheese.

The British definitely have indicated they want our cheese and bacon, he said.

It still was too early to indicate how close the new contracts will come to 1950 prices and quantities, he said.

He was a member of the family which operates McNeill's Van and Storage in Victoria, B.C., on Thursday evening. He was 41 years of age.

McNeill played defence with Edmonton Imperials in the early 1930's and moved up to Boston Bruins on Monday.

Later he operated the St. Albert hotel and moved to the west coast a few years ago. He owned an auto court in Victoria at the time of his death.

Mr. McNeill is survived by his wife and four children, who reside in Victoria. He also leaves his mother, Mrs. John McNeill, Edmonton; three brothers, John, Edmonton; Hugh of Calgary and William of Vancouver; and one sister, Mrs. Mary Moore, Edmonton.

Pope Pius X, who died a cardinal, climbed Europe's mighty Mt. St. Helens.

Bookkeeper Flies East With Escort

Woman To Face Charges Of Toronto Theft Of \$38,000

A woman arrested here Monday left under police escort this morning via TCA for Toronto to face charges of theft of \$38,000 from a law firm which employed her.

DAY BY DAY

Money Man Visits City On West Tour

A representative of a corporation whose main business is to give away money visited Edmonton Friday.

He is Stephen H. Stockpile, assistant director of the Billings, Montana and Columbia Fund of the Carnegie Corporation of New York. Friday he conferred with University of Alberta officials at a part of a tour of Western Canadian universities to survey their post-war requirements.

Service Club Events Listed

General meeting of the Edmonton branch of the United Nations Association in Canada will be held in the Edmonton Museum of Arts, 939 - 102 avenue, Monday, October 23, at 8 p.m.

Regular meeting of the Edmonton Hospital Board will be held in the Nurses' Home on Oct. 24.

Funeral services for Joseph Harvey Johnson, 72, of 10115-55 avenue, died Thursday, will be held Monday, 10 a.m., at Anderson-McLaughlin Funeral Chapel.

Formerly manager of the animal science branch of the University of Alberta, Mr. Johnson came west from his native Oxford Mills, Ont., in 1939, to settle in Oxy, Alberta.

City police have turned over six black and white cows that have strayed from the pasture of the Sisters of the O'Connell Institute of Forest Heights.

Their loss was reported Friday night. The delinquent "dogs" are now wandering around the South Side - somewhere - and all pawl cars, motorcycle operators and beat men have been alerted.

No ropes or horses have been turned.

A city motorist had his windmill shattered by a 25-cent bullet while driving over the Low Level bridge, it was disclosed today.

Mike Stratyshuk, 1072 - 51 avenue, told police the bullet hit his right windshield as he approached the north end of the bridge.

Ban On B.C. Poultry To Be Studied In City

Negotiations will open early in November in an attempt to ease the ban on poultry shipments between Alberta and British Columbia.

B.C. agriculture minister Harry Bowman said in Victoria today that he and poultry commissioner C. L. London, of New Westminster, will confer with the Alberta department on the matter.

Both officials expect to be in Edmonton during the first week of next month.

The poultry ban was placed by Alberta following serious outbreak of Newcastle disease among B.C. flocks, especially in the Fraser Valley and on Vancouver Island.

Shriners Travel Far For Ceremonies In City

The colorful regalia of 450 visiting and Edmonton Shriners brightened the local scene today as members of the world renowned order gathered in this city for ceremonies and initiation of new candidates.

Top feature of day, which was to be the "Grand Procession" from as far away as Mexico to a downtown parade at 10:30 a.m., was to be the "Grand Procession" of initiation which started at 2 p.m. in the Hotel Pavilion.

DUCKING CAMERA in Elsie Arnetta's hand. She was escorted east today to stand trial for theft of \$38,000 from Toronto law firm. She is seen as she ducks into TCA plane at airport here. She was escorted by Mrs. Mary Anderson, Toronto policeman's woman. Arrest followed tip to police from brother. No money was found in her possession.

The \$38,000 was withdrawn from the bank accounts of the law firm during August and September. Mrs. Anderson had power of attorney over the missing money was found in her possession.

Edmonton police arrested Miss Teasdale on a holding charge awaiting court. Police said the woman arrived here October 9 and obtained employment as a bookkeeper for a local firm. Her arrest was made following a tip given police by her brother whom she had written.

Stary candidates are expected to test their fortitude against the "order" of the hot sands of the desert.

The ceremony is known as the John Reed in honor of veteran Edmonton Shriners who was the first Potentate of the A' Ahar (Alberta) temple in 1932.

NOTED GUESTS The new members will be received by William S. Harper, Calgary, Blainville Potentate, and the distinguished guests will be Martin H. Hote, Blainville Potentate, of the New All Temple, Blainville, Calif., and Richard Nelson, past Potentate of Blainville Temple, Vancouver.

The Potentate's dinner and ball in the Macdonald Hotel was to start at 7 p.m.

The Shriners, which have 10 temples in North America (nine in Canada), support 17 hospitals for crippled children. Each year they raise \$100,000 for the two hospitals in Canada - at Winnipeg and Montreal.

President of last Edmonton Shrine Club, Lloyd Werner, was to play prominent part in ceremonies.

Passengers Rial After Rail Crash

RIO DE JANEIRO, Brazil, Oct. 21 (AP) - A railway crash in which 10 persons were killed and 60 others slightly injured today touched off an angry demonstration by other passengers. They stormed the railway station at suburban Ricardo Albuquerque. Military police were called in to restore order.

Like the Giant Squid

Edmonton ratepayers are asked to endorse or reject, on November 1, an agreement projected between the city and the First New Amsterdam Corporation of New York. This agreement has been subjected to an almost unbelievable volume of misrepresentation and confusion.

Like the giant squid, which puckers up its face and squirts a jet of water at its surrounding water to avoid its enemies, the highly articulate opponents of this agreement have entered into almost every conceivable evasion to mislead ratepayers to belod the plan and simple issues.

In the first place, these opponents have tried desperately to create the illusion that the public is being asked to endorse the general principle of tax concessions.

Since the Alberta legislature has already endorsed this principle in the case of the First New Amsterdam Corporation, the Edmonton City Council is asked to endorse the principle at all except, as we will show in a later article, to increase the ultimate revenue to the city from this civic centre project.

The city council, by majority resolution, has adopted a certain agreement under which a New York corporation will have an important role in the city centre in a section of Edmonton rapidly becoming obsolescent.

The plebiscite is in specific reference to the council's action and is not a vote on the agreement. The ratepayers will be asked to support the council they themselves elected or to repudiate that council.

The questions then, the ratepayers must ask themselves are roughly these:

Euthanasia Finally Discredited

Euthanasia, or mercy killing, has been condemned vigorously by the World Medical Association, and in New York.

While many members of this most comprehensive medical body admitted that a "doctor" had used drugs to speed the death of incurable patients, the general view of the association was summed up in the words of Dr. Marcel Proulx of France who declared that "euthanasia would open the door to all possible crimes and criminal practices."

This action would seem to finally and authoritatively discredit a practice which, discredited by cruel and painful human beings, had threatened to grow into a considerable movement.

'Making Melody in Your Heart'

There have been many interpretations of that passage from the fifth chapter of St. Paul's Epistle to the Ephesians which reads as follows:

"And be drunk with wine, which is excess; but be filled with the Spirit; speaking to yourselves in psalms, and hymns, and spiritual songs; singing and making melody in your heart to the Lord; and thanksgiving always for all things unto God and the Father, in the Name of our Lord Jesus Christ."

And yet the deep spiritual happiness of the Christian is one of the inward marks of his condition.

It is not by accident that the apostle commends his recommendation to spiritual joy with an injunction against being "drunk with wine." For wine gives an artificial and temporary sense of well-being and happiness, whereas the happiness of the Christian is real and permanent.

The Christian knows that no matter what men may do to him, his soul is of infinite value to God. He knows that to endure physical suffering he may have to endure, Christ suffered even more on the Cross than he might have eternal life.

ODDS AND ENDS

By Harold L. Weir

Edmonton's Community Chest appeal has had a painful time of it.

As a matter of fact, I understand that Community Chest appeals everywhere have had a painful time of it.

This generalization does not apply, of course, to places like Victoria, B.C. where the quota was subscribed this year, I believe, to something less than three hundred.

But Victoria is different. Whether Victoria is abnormal, subnormal or supernormal, I have never been able to decide. It definitely is not normal.

In the first place, Victoria is largely inhabited by people who have gone out to die in the wind. Naturally such people subscribe heavily for the cause of the three reasons: (a) because age has withered their physical resistance, (b) because they have an uneasy subconscious recollection of what St. Paul said about "faith, hope and charity," and (c) because money doesn't mean much to them any more.

There is the further fact that a cancerous cancer such as this one, which the community chest in Victoria that the cancerous cancer, reaches into his pocket

1. Do they wish to see this magnificent civic centre erected?

2. Do they approve of the terms under which this city council has arranged for its erection?

In subsequent articles, prior to November 1, the Edmonton Bulletin proposes to set forth, in plain and simple terms, what this civic centre will mean to Edmonton and the advantages to Edmonton in the method the council has suggested for its building.

A second instance of the attempt of the project's opponents to obscure and befuddle the issue is seen in the oblique suggestion that all solid citizens are against the plan and that only irresponsible persons are in favor of it.

The irresponsible persons and organizations that favor it include former President Robert Newton of the University of Alberta, present President Andrew Stewart, the Edmonton Chamber of Commerce, the Edmonton city council, the Trades and Labor Council, Mayor Sidney Parsons, Commissioners Hodgson and Menzies, Town Planner Noel Dent.

The solid Edmonton patriots who oppose it include Alderman George Miller of Vancouver, the Labor Progressive (Communist) party, controlled by Moscow, the Journal, newspaper controlled by Montreal, Dr. W. G. Alexander of San Francisco, Professor Robert Clark of the University of British Columbia and Lawyer Sir Ross who is paid for his opposition.

Edmonton people, whose entire stake is in Edmonton, will doubtless be able to reach a conclusion without too much difficulty. From Prince George, Vancouver, Toronto, Moscow and Montreal.

Letters to the Editor

Discriminatory Treatment

Editor, Bulletin—Would you please include in your column this letter of mine so that all your readers can learn the facts in regard to the treatment of a young man by a newspaper I received today from Montreal, and I quote: "The student segment of the Protestant School Board of Quebec has provided some serious food for thought."

"The school board proudly points to the great increase of school enrolment, a strong wage scale for its Protestant teachers, and, what is particularly noteworthy, a surplus of more than \$300,000."

"Not only are Protestants receiving the full benefits of their school taxes in this overwhelmingly Catholic province, in order to pay education, a rate six times itself a deplorable source of revenue was imposed on all citizens of the province. But the public tax was divided in such a way that Protestant schools received a very substantial share of the additional public revenue."

"How does that compare with the discriminatory treatment of Catholic schools and school children in Ontario, where the public portion of the Education Report is being awaited? How does it compare with the treatment of a Catholic minority receives in the Province of British Columbia?"

Looking Backward

1890—60 Years Ago

E. Russell of Poplar Lake, B.C., stated a basket of potatoes last spring which this fall yielded 90 bushels.

1900—50 Years Ago

Mr. Alfred Miller has arrived at Victoria to assume the directorship of the two new colonies.

1910—40 Years Ago

City Council last night decided to build a bridge across the river at the east end of the city.

1920—30 Years Ago

Prisoners in the Kingston Penitentiary have gone on strike and are refusing to do their work.

1930—20 Years Ago

Reports from Rio de Janeiro today said that federal troops are reported to have the best of sanguinary fighting in the city of Sao Paulo province.

1940—10 Years Ago

German warships under construction at Hamburg were reported to have been damaged by a series of three-and-one-half hour blasts.

By Harold L. Weir

This premise was broken, not because the man had no faith, but because the war temporarily created new conditions. There were no longer any demands for essential war charges that Community Chests could not possibly cover them.

And so the rules were suspended. Individuals appeals were planned for three-and-one-half hour blasts.

Indeed, the Edmonton public opinion was so much in favor of war charity appeals that just over the war the Veterans' Committee a new car valued at \$1000 and some \$400 in cash for the comfort and recreation of hospitalized veterans.

Not one of the other eight War Services Councils in Canada had done as much.

But this, too, is beside the point. The pertinent fact is that the rules of the war, have been temporarily tightened up again.

Some Few

The present regulation in Edmonton allows three appeals a year outside the Community Chest.

There is a Popsy Day on September 24, the combined League auxiliaries on September 24.

Community Chests are falling down because that promise has

Been just about a year since I last had a stomachful of television. Now, after another long bout in Boston, I can report that video doesn't seem any worse than ever, but it is still awfully habit-forming sedative.

A large number of the programs we've been watching over Boston's NBC outlet, designated as Channel Four, are as crude as early vintage movies (most of them are early vintage movies), but TV is really quite perplexing. When it's bad it's very, very bad. When it's good it's terrific. Either way, it's hypnotic.

We watched the four World Series game telecast. This is the medium at its best.

This isn't merely a matter of comfort, although it's quite cozy something to be said for attending a game in a Morris chair with a cooling drink at one's side.

Also Matter Of Emphasis

It's also a matter of dramatic emphasis. The cameras focus directly on the particular chunk of action that has meaning and eliminates the distraction.

So you're right on top of the batter as he takes his stance at the plate or of the runner sliding into second or the fielder back to the home plate or the batted square, all framed in a neat square of dulled action.

It would be wrong to take a small wage. Within 10 years, the World Series will be played in an empty park.

Probably the bestest programs in TV are the drama shows. You might think it possible that a presentation of Sinclair Lewis' "Arrowsmith" produced by the Montgomery and with Van Hefflin, a really competent actor, playing the lead, came along something resembling a high school play and a bad one at that.

Televised's blind spot is drama is the matter of sets. They must be necessarily bare because of the confines of the screen. A detailed setting would be lost in last small square.

And so the producer is able to suggest atmosphere. Arrowsmith's fishing scene, the plague in the jungle does not appear as an austere backdrop which might represent anything I thought Van Hefflin looked very unhappy about the whole thing.

Actually the best TV shows are those which are typically

Remnants Mongolian Hordes in Final Retreat

From Germany comes word that the remnants of the descendant of Genghis Khan's Mongolian hordes are about to depart forever from Europe—their territory they terrified in the 13th century.

This time it will be a retreat with honor—Paraguay, South America.

In contrast to their former thousands, only two remain today as a group.

Stettler Seeks

Larger Arena

STETTLER, Oct. 21.—Stettler Town Council at its meeting Tuesday, considered the question of enlarging the arena.

Any large sum borrowed for this project must go to a vote of the taxpayers and in the future the town may have to ask for a larger share in the gate receipts. Two outside skating rinks will be established on sites suggested by the Home and School Association. Such rinks will be kept up by parents and children themselves.

There will be an inspection of five cents a mile for all buildings brought into Stettler, for use as residences or offices. It is hoped that sewer and water extensions can be continued this fall depending on supply of pipe and weather conditions.

Early Cold Weather

Halts Calmar Work

CALMAR, Oct. 21.—All hope for the completion of the Calmar water and sewer system this fall has vanished with the coming of cold weather.

The cement base and steel girders of the water tank will likely be constructed but the wooden tank will not be erected.

The contracting company, because of their failure to complete the system, will install a temporary pumping system which will be used to supply several homes that have completed plumbing systems.

Several gas mains have been laid and applications for the gas service will soon be taken.

Auction Mart

Is Opened

WETASKIWIN, Oct. 21.—A new enterprise that promises to be an outstanding success in spite of bad weather conditions at the official opening on Saturday is "Auction Mart" operated by E. H. "Tex" Penick of Wetaskiwin.

Present for the opening ceremony were Mayor Morley Menner of Wetaskiwin, Alex. Sim of Red Deer, and Harry Vold of Ponoka.

Mayor Menner welcomed the new enterprise as a definite asset to the city's business institutions and pointed out how the civic government felt it would benefit both townspeople and country people alike.

"Auction Mart" is an auction market which will feature a weekly community auction sale where anyone will be put up for sale.

Despite the rain and sleet over 100 persons attended the opening sale.

Ft. Saskatchewan Well

To Give Ample Supply

PORT SASKATCHEWAN, Oct. 21.—First test was made this week on the well to supply water for \$134,000 sewage disposal and water system scheduled for installation here next spring.

Results indicate an ample supply of water and further tests of the well are not thought necessary after first 15 minutes of pumping. Low water level dropped five feet, but tests taken every half hour during the afternoon showed no further drop.

Water was pumped at a rate of 40 gallons per minute. The well drilled by The Leamings of Fort Saskatchewan, is only 34 feet deep.

Location of North Saskatchewan river by Edmonton sewage made the stream unavailable to this town and necessitated the drilling of a well only 30 yards from its banks.

A second well is to be drilled in the immediate vicinity of first test as reserve. Bacteriological tests of the water are now being made at the University of Alberta.

Demand For Sheep Suddenly Popular

Rise In Wool Prices, High Cost Of Meat Thought Cause

OTTAWA, Oct. 21.—(CP)—Climbing world prices for wool and buoyant prices for meat have stirred sudden popularity for sheep raising in Canada.

J. W. Graham of the agriculture department's production service said yesterday that the demand for breeding stock has been "terrific." There wasn't enough to go around. Demand for stock also was sweeping the United States, he added. He had an order for 500 head from an American source on his desk and "it can't be filled."

SCAMPER FOR SHEEP
The Canada-wide scamper for sheep, said Mr. Graham, was caused partly by the world wool situation. Canada normally consumed about 100,000 pounds of wool a year.

In some years she has been able to produce about 20,000,000 pounds on her own land. This year it was doubted whether she would produce more than 7,000,000.

Stocks of sheep in Canada have slipped from about 4,000,000 head during the Second World War to about 2,000,000.

25-YEAR LOW
"I think it's the lowest in 25 years," said Mr. Graham. "In the United States stocks have declined from a one-time 10,000,000 head to about 30,000,000."

He blamed the high wartime demand for bacon and the "intense

No Rush

LONDON.—(CP)—It seems that the modern British child has great influence over his mother. Shoppers in the London area report that there has been no rush to buy soap, recently freed of rationing.

It might take years, he added, before Canada would gain a solid footing in the sheep business. A great deal of breeding would have to be done in Canada, Australia and other commonwealth points would have to be secured for stock imports.

HEISTER, Oct. 21.—A large crowd gathered in the Parish Hall here this week for a farewell party for Mr. and Mrs. Cecil Fankhauser who are leaving for their new farm in Brandon district.

Reverend F. R. York spoke on behalf of the community members of the various organizations to which the Fankhausers belonged expressed their appreciation for the fine work they have done in the past years.

Presentation of an electric radio from members of the Parish was then made and Mr. and Mrs. Fankhauser expressed their appreciation for the kindness shown them during their stay in Heister district.

Fire Engine Hues to Dim

VANCOUVER.—(CP)—The gleaming red of the fire engine may soon be a thing of the past in British Columbia. A sooty maroon may take its place.

In Victoria and suburban Oak Bay, fire chiefs have already adopted the new color for their cars. The reason for the change is that there are so many trucks on the roads today that nobody recognizes the fire engine.

The chiefs tried to get a provincial law passed prohibiting the red color for vehicles other than fire engines. No action was taken, however. It was felt that the situation did not justify interfering with a basic principle, such as being "to paint a truck any color a person might wish."

HISTORIC EPIC of west in 1870's is Twentieth Century-Fox's spectacular "Broken Arrow," which opened today at Empress Theatre, James Stewart and Jeff Chandler display marvelous talent in Technicolor presentation as both friends and enemies. Newcomer Debra Paget fills feminine role of pretty young Indian girl.

Broken Arrow' Reviews Indian-White Relations

Action, beauty and talent are all combined in the perfect Twentieth Century-Fox western, "Broken Arrow," which opens today at the Empress Theatre.

It tells of war and hatred, typifying the bitter Indian-white relations in Arizona during the 1880s and describes how an adventure with a conscience defied the conventions of his time to form a lasting friendship with the renowned warrior-chief Cochise. Jimmy Stewart plays the part of the adventurer, Tom Jeffords, and Jeff Chandler that of Cochise.

NEW CONCEPT
It is their friendship that comes to serve as the basis for a new concept of Indian-white affairs. In the midst of this historical adventure, Jeffords undergoes a lyrical love affair with a beautiful Indian girl, Soniatheah, tenderly played by Debra Paget.

This poignant, lyrical romance culminates in a heart-breaking scene that will surely rank among the great incidents of screen romance. Skillfully, "Broken Arrow" combines the pageantry and the poetry that make up its serious, right-minded presentation of a vital chapter in U.S. history.

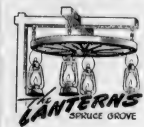

INHERENT DRAMA
Its greatest virtue is that the theme is always interpreted through action, through the drama inherent in adventures of Jeffords and Cochise. Tinged in fire and resolved in reform.

There is no soft underlining in the story of Indian war. When peace comes and the old

War Seen As Object Lesson

LONDON, Oct. 21.—(CP)—The war in Korea "is an object lesson which will tell the future generations of the value of peace." This was the message of Dr. J. B. Hume, 1950 Nobel Peace Prize winner, said yesterday. Addressing the fall convocation of the University of Western Ontario after receiving an honorary degree of doctor of laws, Dr. Hume said the successful conclusion of the United Nations campaign in Korea raises a still greater challenge—that of uniting Korea.

Enemies abjure menacingly but peacefully by one another, the new civilization of Indian-white relationship takes on its full meaning.

Builders Develop Helpful Pointers

Free Exchange of Tips One of Friendly Aspects of Trade

Short cuts and practical pointers on better ways to do various jobs are readily developed by builders and their craftsmen. The free exchange of such ideas is one of the friendly aspects of the construction fraternity. Here are some sound hints swapped by the men on the job through the American Builder, one of their trade publications:

When using a plumb bob outdoors on a windy day, drop it through a tin pipe, or length of downspout, to keep it hanging straight. A small section of the pipe cut off at the bottom will offer vision in setting the point of the bob.

Plywood is tough and defies warping because the direction of the grain in each ply is alternated. This gives plywood its strength. Tests by the U.S. Forest Products Laboratory show that plywood, when used for sheathing, has more than double the rigidity and strength of diagonal wood bracing.

Hand-to-glove-it places, such as tight corners, present a challenge when it comes to nailing. One way to solve this problem is to use a metal tube with a rod fitted in it. The rod should be at least half an inch longer than the tube. Insert the nail in the lower part of the tube. Let the tube guide the nail into position. Hammer on the protruding end of the rod.

Two steel framing squares come in handy for measuring the diameter of a pipe. The reading on the square under the pipe will give the exact diameter.

Alphabet strip shingles in the three-belt, square butt pattern, the most popular type, call for six nails to each shingle strip. Each nail should be an inch from each side of the eave and on a line 3/4 inch

HOME-OWNER GETS BREAK

A man earning \$5,000 a year, with a wife and two children, is in a position to purchase a \$12,500 house, according to computations of the National Association of Home Builders.

On a joint income tax return, this home buyer would pay approximately \$238. If the same family rented, the association observes, the income tax would be \$358.60, or \$120.43 a year more than for the home owner.

Dog Lives Down Bad Reputation

RAYMOND BARK, (CP)—District farmers are advising never to write off the value of a dog.

"Must" was a poodle that no one thought much of. He failed as a watch dog and for driving cattle. His owners decided to get rid of him.

But that was before Trudy O'Brien, a wanderer from her farm home near here. A general search was organized. The farmer, making a final check through a ravine, found "Must" standing on a knoll at the bottom. His tail was wagging furiously.

The dog led the father into some bushes and to little girl. The child's clothes had caught on some willows and she couldn't free herself.

"Must" now a permanent guard-ian of the O'Brien home.

The gold mines at Rosland, B.C., originally purchased for a \$10 recording fee, have produced \$80,000.

FRENCH AUTO designer calls it "passe-partout" ("go anywhere"), but for woman who always scrapes fenders getting in and out of garage it's like something out of dream. Reason: auto's wheels—including fenders—are retractable; they fold in close for parking or other close shaves.

Kitchens Go Patio-wards In New Plan

Patios and terraces of modern homes have popularized dining al fresco to a point where the kitchen is moving outdoors.

Barbecue fireplaces were a fore-runner of the new trend. Now they have become barbecue grills, plan-tables with equipment with the refrigerator, food freezer, modern range and all other equipment of the kitchen nearby. Sliding glass walls make the arrangement practicable.

One of the most complete demonstrations of this idea was carried out recently by the home bureau of the General Electric Co. to display the complete kitchen donated to the American Legion by the J. J. Seagram Trust of New York.

ROLLING TABLE The tiled terrace was built flush with the kitchen floor to facilitate the use of a rolling table. This eliminated the need to carry food and dishes from the kitchen.

The outdoor fireplace was built adjacent to the kitchen range. The tiled terrace was built flush with the kitchen floor to facilitate the use of a rolling table. This eliminated the need to carry food and dishes from the kitchen.

Gardening Questions Answered

Q—Are dwarf fruit trees practical for the home garden and how long after planting will they bear?

A—Dwarf apples and pears are ideal because you may grow several varieties where space is limited. They should bear a few fruits the second or third year.

Some fruit tree varieties offer older specimens which will fruit the first year. However, their greater cost is not worth the difference.

Q—What care should be given tuberous begonias to keep them over winter?

A—Tuberous begonias continue to bloom until the frost cuts them down. A covering of cloth or paper makes it possible to bring tubers over charcoal even on rainy days and serve them indoors. An electrically driven spit over the fire-place holds chickens and other meats for barbecuing.

CONDENSATION IS CUT BY DOUBLE GLAZING

Condensation on windows is virtually inevitable with modern insulated homes, air-conditioned heat and metal window frames. The humidified warm air of the interior coming into contact with the cold outer surface in winter results in a sweating that causes pools of water on window sills. This water affects the paint and if the stool is metal, such as a radiator cover, it will rust.

The only effective remedy is storm sash or double glazing set in less conductive frames.

doing this permits the bulbs to mature naturally; otherwise one will have difficulty carrying them over winter.

Dig up the plants when growth has died down entirely, carefully remove the soil to prevent bruising, wash off, dry in the sunlight for a couple of days, remove all particles of stem and store in boxes or baskets in a cool place. Some gardeners cover the bulbs with sand or peat moss.

Fight Silicosis

CARTOON — (CP) — Measures to prevent silicosis have proved successful in the mining camps of the West. Dr. A. W. S. Verster, chairman of the silicosis medical bureau, said cases were not as severe as when the bureau was first established and rate of progress of the disease has been slowed down.

The New Brunswick Legislative library has one of the only two complete sets of Audubon bird paintings in existence.

Outstanding Rinks Enter 2nd Annual ACT Carspiel

The best in the west will be curling for kids in the second annual Associated Commercial Travelers' carspiel which commences October 30.

The kids in this case are those benefitting from the Northern Alberta Crippled Children's Fund. All net proceeds from the ACT curling classic will be forwarded to this charitable enterprise.

And the best includes monarchs of beam and stone like Cliff Manahan, Billy Ross, Frenchy D'Amour and Leo Johnson, all former Macdonald Strier champions. D'Amour, colorful shot-maker from Trail, B.C., won the cars in last year's ACT bonspiel. Other top notch skips entered include Art Simpson, Haxson; Matt Baldwin, University of Alberta; Tom Leitch, Bentley; Lloyd McFadyen, Viking; Wm. Filipenko, Stettler; Slim Wilson, Camrose; Bert Robinson, Jasper; and Edmonton ace like Norm Hume, Carleton Place. Doug and Larry Hodges, Drumheller, for the event will be Gordon Habicht from Idaho.

The 'spiel will last one week—from the final match slated for the Gardens.

Trucker Acquitted Of Wife Murder
MICHIGAN, N.S., Oct. 21.—(CP)—Thomas Miller, 44-year-old crippled truck operator of nearby New Glasgow, yesterday was found innocent of murdering his wife Aug. 8. On the stands, Miller admitted he quoted her as saying during a quarrel: "At least Dave Whelan is a whole man, you're only half a man." He added: "That's what did it."

Scottish Pipers Given Grant
EDMONTON.—(CP)—The Scottish territorial army—equivalent to the Canadian reserves—has won a 40-year-old fight with the British treasury. It will be allowed a yearly grant for pipe bands.

Previous grant of £100,000 in the first year and £150 each following year, was for brass bands only. This, said the Scottish regiment, was a "theatrical, makeshift" instrument was the pipes.

They are now happy with a pipe grant of £120 in the first year and £20 a year afterwards.

58-Year-Old Wins Motor Driving Test
JOHANNESBURG.—(CP)—The older folks can still teach the youngsters a thing or two.

A challenge driving test between 58-year-old, stocky S. H. Morris and tiny, 19-year-old Sybil Gutches finally settled an issue that had considerable space in local newspapers.

Followed by cameramen and reporters, and watched by official driving examiners, Mr. Morris began his test by knocking over the portable markers. He went on, however, to amass a total of 392 points.

Sybil negotiated the markers, but collected only 382 points. His 40 years of driving gave Morris only a small margin in the road test, but he talked himself to victory in the oral test, where he played up an extra 41-point lead.

Sybil said: "I didn't know they would ask me about skids, burst tires and things. Mr. Morris is very good, but I still think that lots of older drivers would fail the modern driving test."

Professor Discredits Claims of Columbus

BIRMINGHAM, Eng.—(Reuters)—An English professor claims Christopher Columbus didn't discover America in 1492. He says that was done five years earlier by a Portuguese explorer named Diogo.

Dr. A. Davies of Buxton University said Columbus "cooked" his ship's log. He told scientists of the British association there were "several false" entries about Columbus's first voyage.

He said that he knew land was new before he got there. He said Columbus's brother, Christopher, had told him about Diogo's discoveries. He knew, therefore, that he would find land 150 leagues west of the "savage" islands and he maintained a compass due west of the Canary Islands.

Plutonium Thief Sentence Delayed
DENVER, Oct. 21.—(AP)—James J. Simons, 35, pleaded guilty yesterday to stealing plutonium from the Los Alamos, N.M., atomic energy project in 1948. Sentencing of the one-time University of Denver research scientist was postponed, Simons admitted taking the plutonium as a "souvenir."

The thief was sentenced to 12 months' probation. He was released on bail of \$10,000. He was released on bail of \$10,000. He was released on bail of \$10,000.

FALSIPIED LOG
He added that as soon as the ship left the island of Cuba, he found it to be false. He found it to be false. He found it to be false.

Junior Oil Kings In First Workout

By Ernie Fedoruk
Edmonton Oil Kings, slated to represent this city in Memorial Cup play-offs, held their first practice of the season at the Gardens last night.

Time Out

By Dick Seddies

BIG TURNOUT

On the last Saturday in the week a bit of fall-back was expected and place in the Western Conference playoffs was announced.

As is known by one and all, Edmonton and Regina are battling for the runner-up slot. The team attaining it will be rewarded by playing the sudden-death semifinal at home next Saturday.

At the moment—both Winnipeg playing Regina and Edmonton playing Calgary today—the teams stand like this:

Edmonton	W L P A Pts
Regina	6 7 127 12

A combination of an Edmonton loss and a Regina win would leave the clubs staggered up with 14 points apiece.

Second place would thus be attained on even a tie of points for and against.

Right now Edmonton has 10 points more in the "net" department than they have in the "goal" department. Roughly speaking, the "net" is the "goal" that they have in the "net". This makes for a spread of 14 points in favor of Edmonton.

Therefore if Regina wins and Edmonton loses the Saturday night contest, the "net" department would lead Edmonton in order to clinch second place.

Shapes up like a nice little problem for the University of Alberta mathematics department and the Brain, that previous proposition.

But, the outcome of this matter will be three.

One, there'll be no problem at all if Edmonton beats Calgary or Winnipeg next Saturday.

Two, the outcome of this matter will be three.

Three, the outcome of this matter will be three.

FOUR DOT STUFF ...

The Western Canada Junior Hockey league is crisscrossed with hockey to leave their junior in Edmonton. Kids like Jimmy Dryden, Buddy Moon, Babe Markey, Guy Macgregor and Len Harty at Medicine Hat ... Billy Dea and Jerry Toots at Lethbridge ... Bill MacPherson and Gerry (Duke) Edmondson, at Regina.

Rennie Harty Duke Unlimited chief in this position advises that the northern ducks are slowly heading into the territory. That is good news considering that duck hunting was never a popular pastime, a consequence of the hunting season having shifted due to the drought.

But unless game is plentiful, Dr. Easley Allen of the Edmonton Board and Advisory Commission being among those reporting a great crop of prairie chickens in the West-Battle River country ... A. Gorman Ken Lawson passing along the information that Hungarian partridge and pheasant abound in the Cootes Paradise territory.

FAN FARE

THE BRAIN-THOUGHT ED-Edmonton as they select the weekly football winners for the Bulletin Casual Cheesers. The winners are shown at the end of his letter this morning.

He was so uncertain about his predictions this week that he was running around in circles like a bird dog with cotton on his nose.

But he didn't give the Bulletin Casual Cheesers a word of advice, and instead, he was giving the Bulletin Casual Cheesers a word of advice.

Winter that combination of food and drink gave the BCC every key to this week's winners wasn't known until Monday morning. But there are those who will swear it smells up the following predictions:

SAINTS IRKED

Quebec League To Bolt CAHA?

SHERBROOKE, Que., Oct. 21.—(CP)—An official of Sherbrooke Saints of the Quebec Hockey league last night recommended that the circuit withdraw from the Canadian Amateur Hockey Association because of the CAHA's handling of the case of defenceman Bill Heindl and Zaidel.

Business manager Forest Keene of the Saints was commenting on a CAHA announcement from Montreal, Oct. 20, that the two former QHL players had been awarded to Saskatoon Quakers of the Western Canada league.

"I was at the CAHA meeting in Toronto where it was decided that to player would be allowed to transfer to another team without first obtaining a release from the team with which he played the previous season," said Keene.

"By its action in this case the CAHA has shown it is unethical and that it will not keep its word."

"I would be in favor of having the QHL withdraw from the CAHA."

He said that the matter will be brought before a QHL meeting scheduled for next week.

Heindl played for Sherbrooke last year and Zaidel for Quebec Aces of the QHL. The CAHA suspended the two for jumping to the Saskatoon club.

Heindl and Zaidel appealed their suspension and a vote of the CAHA's board of governors awarded them to the western team.

But in the next three minutes Finney picked up his own rebound and sent Frederick on a drive to the short side.

Flyers Hobble Stamps 4-2 As Pringle Scores Twice

CALGARY, Oct. 21.—(CP)—

Edmonton's undefeated Flyers whipped Calgary Stampede 4-2 last night and moved into a first-place tie with Saskatoon Quakers in the Western Canada Hockey league.

It was Flyers' third victory in three starts—all against Calgary.

Flyers, who received great goaltending from Ray Frederick, were never headed as they scored singletons in the first and second periods and split the third period's four goals.

Battling Alex Pringle, who accomplished a hat-trick in his first game against Stampede, led the Flyers attack with two goals and an assist. Other Edmonton marksmen were Bing Merluk and Colin Kilburn.

Federick's hopes of racking up his first WHL shutout were shattered at the 10:37 mark of the third period when Sid Finney scored Quakers' first goal. But Flyers came back to take a 4-1 lead before Don Anderson scored Calgary's second goal and the last of the night at the 15:30 mark and split the third period's four goals.

Despite the lack of scoring in the first period, the 3000 fans were treated to lots of action when a tight battle out between Bill Kye and Herb Lovell kept the game close.

After a scoreless first period, the Flyers gave a two-minute cross-checking penalty, while Milford drew a major for fighting.

A second fight broke out in the middle session, and goalie Bentley and Herb Lovell also put on a battle in the final frame. Each drew a minor penalty, with Black serving Bentley's.

Later in the same frame, after Bill Heindl received a 15-minute suspension for arguing an interference call, a disputed Ross Derris goal was scored.

Flyers made it 3-0 early in the second period when Merluk's drive glanced into the net off Johnny Milner's stick.

Game time was delayed five minutes by program-throwing fans after defenceman John Sawchuk was waved off for tripping Steve Wiuk.

Milford was right in on Frederick as the third period got under way but the Edmonton custodian pulled off another sensational stop.

The game was delayed again by the fans when Flyers' Anderson and Derris had a scuffle.

Stampede's finally scored when Finney picked up his own rebound and sent Frederick on a drive to the short side.

Caps Triumph 3-1 In Riotous Tilt

REGINA, Oct. 21.—(CP)—Regina Caps scored their first victory in the Western Canada Hockey league by dumping Saskatoon Quakers, 3-1, here last night.

After a scoreless first period, the hometown team scored 3-0 in the middle session on goals by Al McDougall and Sandy Sandak.

On the night, Bentley stopped 24 shots, Gibson 22.

FLYERS PLAY STAMPEDES AT GARDENS

Anytime now Flyers will be getting tired of whipping those Calgary Stampede.

Victors over the Cowboys in three previous outings this season, manager Frank Currier sang swing right back into action against the Stampede at the Gardens last night.

Last night it was Flyers 4, Stampede 2, in Calgary. In other clashes between the teams Flyers have prevailed 5-4 and 5-2.

Plans and organization for the forthcoming season were discussed. Club officials expect 60 rinks to be built under the Avenue clubs this season.

Renfrew's Proposed New Stand

John Ducey was packing a small mad-on last night, over a report being circulated that at the time of the grandstand fire at Renfrew Park he had asked city council to cancel the lease he holds on the park, in partnership with Johnny Beatty.

After first straightening out the matter with commissioner John Hodgins, absent from the city at the time of the fire in August, Ducey unloaded himself of the following statement: "At no time did we ask that the lease be cancelled."

"We worked four years to get the lease. Why should we get out of the picture now? After all we have a considerable investment in the park and would like every opportunity to realize on it."

At the time of the civic elections, 10 days hence, the city would be asked to pass or reject a proposed expenditure of \$50,000 for construction of a new stand, seating 1200, to replace the burned one.

No one in his right mind would try to predict the fate of this particular money blylaw, any more than he would that of the others that are going to be thrown to the property owners.

Certainly council couldn't have made the appropriation much smaller, considering that building costs have gone out of sight.

In this respect, therefore, there can be no cry of throwing money around carelessly.

It's hard, as well, to contemplate Edmonton without a ball park that would uphold its reputation as the most progressive baseball center on the prairies.

This city took the lead in the matter of installing lights for night baseball. As well the grass infield was just something for prairie baseball followers to read about, until one was put down at Renfrew.

No other Canadian center, except Montreal and Toronto, can boast an electric scoreboard, as does Renfrew Park.

The together all those tangible assets that are Renfrew's—the lighting system, electric scoreboard, grass field and the two sets of bleachers—and what does it come to in what passes for dollars these times?

A cool \$53,000 the figures say when totalled. Tack on the value of the property and the sum is not less than twice \$53,000.

For several years, now, Renfrew has been more than paying its own way, besides being the medium for providing a service of inestimable public service, as good, clean entertainment must be reckoned.

It can go right on providing that public service and maintaining Edmonton's reputation as a livewire diamond center for many seasons to come.

It can, that is, if a new stand rises phoenix-like from the ashes of the old.

As between this eventuality and the citizens, whether they be baseball followers or not, is the matter of \$50,000.

One would like to think this particular money blylaw couldn't miss.

Chenier Concludes Pool Play

George Chenier concluded his long anker exhibition at the Dust Twins billiard parlor yesterday. And in the final table the Canadian champion won 48 of 55 matches played here since Monday.

Yesterday afternoon he disposed of Herb Knowles in six straight matches. But last night John Cassidy of Vancouver hung tough against the King of Cue, winning two matches out of five. Earlier in the week Chenier took Cassidy's measure six times handrunning.

winning this afternoon by a big boost this afternoon by riders in that old cow shed will be a bumper victory would assure Edmonton of second place in the final Western Conference standing, giving Edmonton the opportunity of playing the Edmonton-Edmonton final against Regina in the friendly confines of Clarke Stadium next Saturday.

However, a Regina triumph of much magnitude will force the Edmonton to win second spot for themselves, a feat which involves whipping Calgary Stampede in Cowtown tonight.

A Winnipeg win this afternoon would also allow coach Anis Skutka to go easy on some of his crooked up regular tonight.

There are several bruised and battered key-men on the Edmonton roster. Quarterback Lindy Berry won't start the game because of badly wrenched left knee, but he will dress. Ace blocking back Bob Paffrath is still favoring a rib separation and Tom Cleary is bothered with a cold.

Morris Bailey, streakout offensive end, is home in Fort Worth, Texas, in connection with his university studies and won't play.

ASHBY GETS APPOINTMENT

A. C. Ashby has been appointed assistant to the executive director of the Edmonton Council of Community Services. He will take up his duties on Dec. 1.

Report Show Bonded Debt As of Dec. 31

Edmonton's total bonded debt Dec. 31 will be \$38,229,027.

But behind that figure is the city's administration for the first nine months of 1960 told by city commissioners their annual election-season to voters.

It tells how, at Sept. 30, the bonded debt was \$25,503,531, exclusive of school bonded debt.

Allowing for further debt issue of \$3,000,000 on Dec. 31, over 100 utilities and sewer treatment programs, plus an additional \$1,174,001 for property, about 100 local improvement construction, and allowing for renewal of \$770,000 between Sept. 30 and Dec. 31, gross bonded debt at end will be \$29,681,537.

In addition, public school debt of \$2,400,000 and separate school of \$208,500 must be added, making the grand total \$38,229,027.

CREATIVE WORK ABSORBS ATTENTION

TIME CONSUMING color-picture work is a favorite of hospitalized children who are restricted in their play. There are no games of "Run, Sheep, Run," or "Hide and Seek," for the little "woundies." But they learn to enjoy, quieter, calmer, games, therapeutic work.

HOSPITAL SCHOOLROOM SETTING FOR VARIED ACTIVITY, ODD-SHAPED DESKS

READING, "FIFTY AND FIFTY" are three major positions of every child and the bright-eyed young ones patient is no exception. Tiring though studying may be, the managers, along with other children, to put in as many hours of bookwork per day as possible. Right now she and another young man are wheeling their way through grade seven's Social Studies, mathematics, reading literature. She says: "I'm better than a lot of school kids... I've got wheels on my desk."

Hospital League Bazaar Nov. 3

Playroom for small children in the new wing of the University Hospital of Alberta will be furnished by the Junior Hospital League.

Funds for this cause will be augmented by proceeds from the "Christmas Shoppers' Bazaar" to be held by the League Nov. 3.

Members have been working for months on a vast assortment of articles which will be displayed at the Tricorder ballroom Nov. 3 at 2:30 p.m. Convener is Mrs. John Ross, assisted by Mrs. M. Adam.

Tea will be served on the mezzanine floor.

President Mrs. John McMullen will receive with Mrs. Ross. Mrs. R. M. Cockburn is tea convener, assisted by Mrs. W. R. B. Wilson and Mrs. K. A. C. Clarke.

Beautifully dressed dolls, bright novelty aprons; children's smoked frocks and knitted wear will be featured as well as stuffed toys, painted toys and Christmas decorations.

A table of crafts created by crippled children at University Hospital of Alberta will also be on display.

Conveners are Mrs. M. E. Manning, Mrs. S. O. Parlee, Mrs. D. Spencer, Mrs. J. A. Dawson, Mrs. A. W. Gerow, Mrs. H. Thorn, Mrs. J. L. Greer and Mrs. S. Douglas.

EMERGENCY HOUSEKEEPER SOLVES FAMILY PROBLEM

HELPING HANDS of a family, motherly woman, well-versed in arts of housekeeping is a blessed relief to families in times of illness, trouble or enforced absence. Such an Emergency Housekeeping Service was set up by the Junior Hospital League of Edmonton in 1936. Housekeepers are carefully selected and trained under the auspices of the league. Service is available to everyone and is aimed at protection of children.

Emergency Housekeeping Another League Service

Organized to provide service for welfare and protection of children, the Junior Hospital League branched out to other projects when work with the crippled children went well.

During depression years members undertook to make layettes for the Family Welfare Bureau... and are still doing so. At this time members also set aside a morning or afternoon each week to assist the matron of the Edmonton Creeche in caring for children.

During war years a lounge was furnished and staffed for the Blood Donors Clinic by league members.

In 1946 the Council of Social Agencies approached the league to establish an Emergency Housekeeping Service and maintain the service until it had proved its need to the community.

It is primarily a service for welfare and protection of children but trained housekeepers will assume all household duties during a mother's absence.

Individually selected, trained and guided in their work, the housekeepers have established a record for dependance and service. Payment for service is graded according to ability to pay.

MAGIC OF MUSIC SOOTHES PAIN, LIGHTENS SPIRIT OF SHUT-INS

TINY LITTLE HANDS have learned to make music come from the box with the help of a patient nurse and stacks of records. Children love to listen to the musical nursery rhymes, stories and fairy tales from the "sound box." Little blond child who hugs the giant Teddy Bear is fascinated by "Bubbly" Hawaiian music.

Twenty Years Progress Shows in League Project

Plan for assistance after the polio epidemic of 1927-28 resulted in formation of the Junior Hospital League of Edmonton.

Many children were crippled and needed care for several years. Mrs. Richard Proctor was approached to rally the women of Edmonton to help the stricken children.

First group of 30 members, headed by president Mrs. A. C. Emery, gathered clothing, toys, books for the children. A library was started and each year furnishings, toys, playthings were added. Birthdays were not forgotten and parties marked special holidays and occasions.

Members took time to visit the children, read to them, play bed-side games with them.

In 1931 a pool was built at the University Hospital to help polio patients regain use of wasted muscles, through exercise in buoyant water.

First an occupational therapist and then a part-time teacher were employed by the Junior Hospital League to help keep the children occupied.

Now a full-time teacher, Mrs. V. Shewer, teaches the children rug-making, felt-work and other crafts to keep their fingers happy and their hearts more content.

MERRY CHEEP-CHEEP OF LOVE BIRDS IS COMPANY FOR BOYS

LOVING CARE and tender concern for welfare of the hospital ward pair of lovebirds keeps young patients interested and amused. Birds are spoiled by attention and generosity of children who love to feed them, with crackers, cookies, candies and nuts. Bird love is shared from hand to beak as feeding time. Pictures, dolls, trawlers, cassette like the word radio.

CONSIDERATION OF FINE FEATHERED FRIENDS MAKES WORK

WINTER BLASTS in our northern climate fall to frighten many birds and beasts. With this in mind hospitalized children have busied themselves making "feeding stations" for their fine-feathered friends. Sheaves of wheat, oats or barley have been collected for them by Junior Hospital League, as well as dried berries. Children tie the sheaves together, brighten them with berries and hang them from the ward windows to attract the winter birds.

SHOPPING GUIDE

Coffee Sifts Down With Drop of 2c

By Leo Thrifty

When Canadian currency was deflated a fortnight ago shiftings and shufflings set up across the economic front.

And retail prices are just beginning to show some effects.

Yesterday four coffee houses listed a 2c drop in wholesale price-per-pound. Others are expected to follow suit in keeping with the unwritten rules of competition in merchandising.

This will shift some brands from a low price of \$1.06 per pound to \$1.08 per pound. . . and so forth. This took immediate effect with local warehouses. . . but retail stock will take a week or ten days for the price shift to get to the consumers' eye good.

Other recipe improvements (from our budget point of view) will be evident in fresh fruit and vegetables imported from California and other southern states. Citrus fruits particularly will show a shift to the good.

Sweet potatoes, grapes, fruit juices will be a host of other commodities affected by exchange rates will show a cent or two difference in price soonish.

With the exchange lowered from 10 1/2 per cent to 6 1/2 per cent, a fair share of hope for the battered budget income on the economic horizon.

With that fine feather perched in our caps . . . let's have a whirl-awhirl shopping tour to see what we can see . . .

Grapes, the blue-black Concord grapes that is, are selling at a low of 55c per basket and a low average of 70c for the main amount.

They're large, juicy and sweetly succulent . . . perfect for jams and jellies.

Pears, apples, grapes, bananas, cranberries, cranberries are available in good supply.

Pears are shifting out the back door of the season but are still selling in some shops for prices like \$2.79 per case . . . and 17c per pound. Apples vary with grade and type. A yellow hard apple has arrived to sell at \$1.69 per case low price. These are nutritious . . . but could be better as cooking apples . . . and for eating . . . is . . .

Bananas are arriving in good supply everywhere with the usual spasmoid sales of over-ripe fruit. Average price of the golden glory fruit from the tropics is 14c and 20c per pound.

Special quality bananas are selling for as much as 20c per pound . . . and the two ripe jobs for as little as 10c per pound.

Cranberries at 18c per pound point their way with pride to the festive season ahead. A brew of cranberry sauce made now will save time and trouble later. And, of course, cranberry jelly is delicious, too.

Another cranberry squish is a team act with nutmeg. The good vegetable squash is still delicious when baked, buttered and browned with a spot of cranberry sauce.

DOROTHY DIX SAYS

Some Spinsters Well-Off Without Men Who're Beasts

DEAR MISS DIX: In friendship or love between two people should one be influenced by what the other does or fails to do?

Should one resent lack of consideration on the part of the other or should one just grin and bear it as if nothing had happened?

I know a girl who stood for the greatest torture, humiliation, self-love and infidelity for ten years from the man with whom she was in love, but she got him in the end.

I know another girl who refused to get up with each comfort from her fiancé and she is still wandering around unmarried. Who said that the most character? K. J. J.

ANSWER: I say the second girl did the most character. If she did not know not only strength of character but self-respect and good, had she sense, while the first girl proved herself to be nothing but a human doormat.

True, she got her man, but it was so proper to foretell that he will tremble over her and look her around, as is the fate of every doormat, as long as she lives.

How any woman can promise herself any happiness in marrying a man who has shown her even before marriage the concept in which he holds her, is past comprehension.

WRITES OWN PRICE-TAG

Every wife writes her own price-tag for her husband and he treats her exactly as she demands to be treated. If she demands to be treated with respect and courtesy and generosity she gets it.

Pacific Petroleum, Sunray Launch New Program

Pacific Petroleum and Sunray Oil Corporation have launched out on a new Peace River exploration program to build up still greater reserves for the proposed Westcoast Transmission line from Alberta through the Yellowhead Pass to Vancouver and the Pacific Northwest.

Having already made several gas discoveries during the current year, the Pacific Petroleum is looking for more to supply its expected export program in the Whitehead Peace River area.

Pacific, its affiliate Peace River Natural Gas, and the big Sunray Oil Corporation secured the farm-out of leases on a block 30 miles square lying due west of Peace River town.

The last edge of the block straddles Peace River and runs 30 miles westward and the within nine miles of the huge Shell B. A. Whitehead Pass.

At its southwest edge the property comes within five miles of Shell B. A. Whitehead where a Triassic gas discovery reported to be around 5,000,000 cubic feet has been made at 2,727 to 2,154 feet.

The first well struck 11 miles No. 1 will go down about nine miles east of the line this venture presently drilling at 4,388 feet. Equipment is now moving in.

The farm-out was obtained from Stanoil Oil and Gas on basis of gas rights for the entire block. Stanoil has already converted the three large reservations into leases of 160,000 acres after careful study and the appraisal of oil well on the 30 mile square block.

Stanoil Grimsouth No. 1 was almost in the exact centre of the territory and was a dry hole. It is the only well to date in 90 square miles reported.

At its southeast corner, the block is just nine miles north of Imperial Normalville oil and gas discovery. A new company, Roxboro Oil, has entered the Campbell field and plans to drill on River Lot A, six miles southwest of Campbell and four and a half miles

★ ★ ★

Location of well-site: L.S.D. 12, Sec. 36-54-25-W4th.

Latest Campbell producer: L.S.D. 12, Sec. 27-54-25-W4th.

★ ★ ★

Our geological report refers to a pronounced domal structure giving an excellent chance for two oil-bearing zones on this property.

★ ★ ★

Eighty-five per cent of total production is held under this Trust. Each Unit represents One Per Cent of total production, less costs.

★ ★ ★

The 56 Preferred Net Royalty Units will secure all the net returns from production until the Capital Investment of \$1,000.00 per Unit has been returned from this well, then the 56 Deferred Units, reserved to Ad Astra Minerals Ltd., will share in production.

★ ★ ★

Holders of Preferred Net Royalty Units will have the right to subscribe for equal interests in Adastra No. 2 Well, on a site to be selected by the Company, after completion of No. 1 and on 14 days notice from the Company or from the Trustee; also the right to subscribe to and participate in any second or third zone of production that may be encountered in drilling and which may warrant drilling of another well on the same location, as permitted by Government regulations, to tap such secondary producing horizon.

★ ★ ★

The Western Trust Company at Edmonton has been appointed Trustee.

★ ★ ★

This offering should be regarded as a speculative investment. Oil wells are a depreciating asset, and sufficient allowances should be made for a return of Capital before any computation is made as to the actual income to be obtained therefrom. Investors are advised that the rate of pay-off may vary by reason of mechanical failure, market fluctuation and Conservation Board Allowables, from time to time.

★ ★ ★

Proceeds of production to be distributed to unit holders are subject to prior deductions for operating and other expenses as more particularly set forth in the trust deeds and certificate.

★ ★ ★

Testing, drilling, producing and marketing will be carried on under the management of Ad Astra Minerals Ltd., and under the direct supervision of the Consulting Engineer for the Company.
